Quality creepy game. Quality creepy soundtrack. With a bit of Bach at the end.

Not much more I can say beyond that, except that it's more ambient in its eeriness than overtly "musical" (y'know: hums, whistles, rumbles...that kind of thing). Moody as f\*ck, any-which-way.

Hey, I love this kinda sh\*t. Especially awesome to write spooky stories to. Also good to doze off to. (Definitely not an insult, as I always go to sleep to the sound of some instrumental album or another. Better still the scary ones!)

Verdict: 9/10.
