Max Payne 1, Ultimate Mod Pack, 400 Mods CPY Original max-payne is very good game, i really miss it. But i need to play max-payne 2 too. No way to play any fight in max-payne 1 (because of story) so i need to get max-payne 2. But max-payne 1 (hl1, uni, and remastered version) is very rare now. If i buy, i need to have both max-payne 1 and 2. But i dont know how to download it in one package. So, I just buy one max-payne 2 when i have money, and when i have some i'll try to download it and make mods for this game. I need a modpack which contain most of the mods from hl2. This study assesses the diagnostic value of serum thyroglobulin (Tg) measurements in patients with differentiated thyroid carcinoma (DTC). We determined the follow-up serum Tg level in 525 consecutive patients with DTC and assessed the diagnostic value of these measurements in relation to clinical history and examination. Routine follow-up Tg measurements were performed in both untreated and radioiodine treated patients, and in the former group Tg measurements were repeated after 6, 12 and 18 months. The initial (Tg0) and follow-up (Tg6, Tg12 and Tg18) serum Tg level had the same diagnostic value in all patients and showed a sensitivity of 95.1%, a specificity of 100% and a positive predictive value of 100%. A 2-fold increase in Tg (Tg2) was only found in 20.5% of all DTC patients. The patients with this Tg increase also had an increased Tg0 level. The sensitivity of the Tg measurements alone (especially Tg0 and Tg6) for the diagnosis of persistent, recurrent or metastatic disease was low but improved to 76.3% if Tg2 was taken into account. Therefore, routine follow-up Tg measurements can replace the radioiodine scan in the follow-up of patients with DTC. A slight increase of serum Tg, which might be due to elimination or to other causes, does not alter the follow-up management and should not be misinterpreted as evidence of recurrent or metastatic disease.The invention relates to a device for use in cleaning the internal cavities of transport containers such as railroad tank cars or other transport containers.
